Waste Collection – Rural Village Half	240ltr monthly waste, 360ltr monthly recycle 240ltr fortnightly organic	\$323.30
Waste Management		
Waste Availability Charge	This charge applies to all rateable properties where the waste collection service is available, but not being utilised.	\$11.97
Waste Minimisation Charge	The levy covers waste minimisation and education including the core waste service functions of waste strategy and policy development, the recycling drop off centres, and issuing of annual tip vouchers to ratepayers.	\$NIL
Waste Levy Charge	As a result of the natural disasters of February and March 2022 and the subsequent damage to Council's waste cell, Council has been required to transport waste off site to other facilities. This has resulted in Council incurring significant additional operational costs, it is anticipated that this will continue during 2023/24 year until the cell becomes operational. To offset the increased operational costs, Council has introduced a waste levy of \$65.00 per assessment for the 2023/24 year.	\$65.00
Non Domestic		GST Exclusive
Commercial/Industrial – Urban	240ltr weekly waste, 240ltr weekly resource recovery bin	\$520.91
Commercial/Industrial - Rural	240ltr weekly waste, 240ltr fortnightly recycle	\$490.51

Residents that would like to vary their current waste collections service from the standard service or requiring any further information should call Council's Customer Service Centre on 02 66250 500.

All waste collection charges are an annual charge, under the Local Government Act. This in effect means that the charge will be applied for the whole year regardless of the number of times the service is utilised.

To ensure the 2023/24 rates notice reflect any variation to waste collection charges, residents should contact Council by July 1, 2023. Changes made after that date may not come into effect until the following year.
