## Visit your Community Recycling Centre today and help build a healthy environment for our future.

Not all household waste can be put in your kerbside bins. Community Recycling Centres offer a **FREE** and **EASY** solution for the disposal of household problem waste such as paints, gas bottles, motor oils, batteries, smoke detectors and fluorescent globes and tubes.

Many of these materials can be reused and recycled if processed correctly. Recycling helps our environment because it saves water, energy and natural resources.
