IMPORTANT RECYCLING INFORMATION ESSENTIAL FOR ALL RESIDENTS

Our recycling industry is changing and we all need to be flexible and adaptable to make the most of our valuable resources.

There are now far tighter controls on the contamination of recyclables and it is more important than ever that we are placing the correct materials in the right bin.

Lismore City Council has launched a new campaign – #RecycleRight – asking people to make some simple changes to our recycling routines.

This has been developed with NE Waste and our neighbouring councils as a region-wide campaign across the Northern Rivers.

The main message of this campaign is to keep it simple and ensure you are only placing clean and correct recycling materials in your yellow bin.

It is essential that we have clean recyclables that can be sent off for remanufacturing in Australia and overseas.

If we all do this, we can keep our resources coming 'round and get the most life out of every product.

Please see below our six easy #RecycleRight routines to follow. We also have a handy fridge magnet that tells you what goes in which colour bin. Pick one up free at our Corporate Centre in Goonellabah or your local library.

For loads more information including frequently asked questions, visit www.northernriverswaste.com.au.

ON PUBLIC EXHIBITION

Fifth Round of Reclassifications – Lismore LEP 2012

At its ordinary meeting on 12 June 2018, Council resolved to support a planning proposal to amend the Lismore Local Environmental Plan 2012 to:

- Reclassify 619 Skyline Road, Goonellabah (Lot 2, DP 617349), from 'community' to 'operational' and rezone part of the land from Zone RU1 Primary Production to Zone SP2 Infrastructure and Zone E2 Environmental Conservation to facilitate the future expansion of the cemetery, protect subtropical rainforest adjacent to Tucki Creek and remove the minimum lot size of 40ha on part of the land being rezoned to SP2; and
- Rezone part of 627 Skyline Road, Goonellabah (Lot 11 DP 549608), from Zone SP2 Infrastructure to Zone RU1 Primary Production to align the zone with the rural residential use of the land and apply a minimum lot size of 40ha to the land being rezoned to Zone RU1.

The Department of Planning and Environment issued a Gateway Determination on 30 August 2018. The Minister of Planning has not issued delegation to Lismore City Council for the making of this LEP because an E zone is proposed to be applied.

A public hearing will be held into the matter of reclassification in accordance with section 29 of the *Local Government Act 1993*. The public hearing will be held after the closure of the exhibition period. A public notice of the hearing will be published at least 21 days prior to the hearing.

The planning proposal is on public exhibition from 6 December 2018 to 7 January 2019.

Copies of the draft amendment are available at our Corporate Centre, 43 Oliver Avenue, Goonellabah, and at www.lismore.nsw.gov.au via the 'Your Say Lismore' link.
