

YOUR DIGITAL DETAILS

File: _____

Lismore City Council's Development Application (DA) correspondence, including approvals, will now be signed and delivered electronically.

All DA approvals will be recorded electronically, signed by Council staff with a digital signature and sent to applicants via email or other electronic means.

Council will no longer be issuing hardcopy DA consents unless applicants make a specific request to have a paper copy of the electronic record.

The move to e-approvals is designed to improve security in the digital age, deliver information as quickly as possible, save paper and postage costs, and reduce Council's environmental footprint.

We are calling on everyone who does business with Council to provide an email address for correspondence. Please complete applicable details below.
