1. Where road/drainage construction or maintenance works require the replacement of an existing standard gutter crossing giving access to private property, such replacement shall be at the Council's cost.
2. Where access other than a standard crossing was in existence prior to the road/drainage works, Council shall supply and install a standard crossing in conjunction with such works, provided the owner pays the cost of materials.
3. Where a new vehicular access is required (none having existed previously) the owner shall construct at own cost to Council's standard.
